

MACHINES

JSM Sealing Machines

Item No.: JSM-WD11

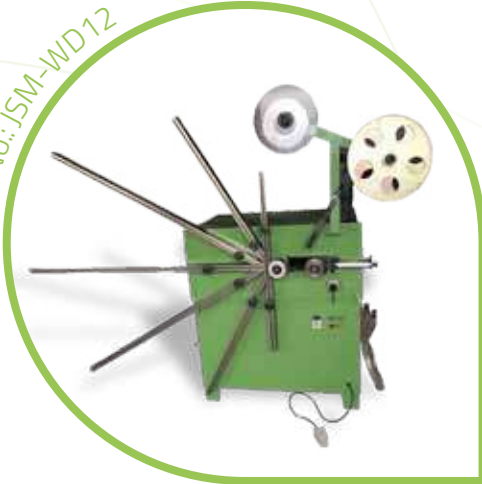

Semi-automatic horizontal big size winder

Item No.: JSM-WD11

- It is for SWGs' filler (Sealing Element), horizontal type
- Voltage: ~380V
- Power: 0.4KW
- Net. Weight: 300 kgs
- Work range: 250mm ~ 2500mm
- Dimension: 116*76*102CM

Item No.: JSM-WD12

Manual vertical big size winding machine

Item No.: JSM-WD12

- It is for SWGs' filler (Sealing Element), vertical type
- Voltage: ~380V
- Power: 0.4KW
- Net. Weight: 160 kgs
- Work range: 150mm ~ 1500mm
- Dimension: 115*76*125CM

Item No.: JSM-WD13

Winder for small size

Item No.: JSM-WD13

- It is for SWGs' filler (Sealing Element), vertical type
- Voltage: ~380V
- Power: 0.40KW
- Net. Weight: 230 kgs
- Work range: 15mm ~ 300mm
- Dimension: 87*92*105CM

Item No.: JSM-GR10

Trough Maker for OR

Item No.: JSM-OR10

- It's for making trough for outer ring of SWGs
- Voltage: ~380V
- Power: 0.75KW
- Net. Weight: 250 kgs
- Work range: 150mm ~ 2500mm
- Dimension: 85*94*128CM

Item No.: JSM-TM10

Grooving machine for IR

Item No.: JSM-IR10

- It's for making groover for inner ring of SWGs
- Voltage: ~380V
- Power: 0.88KW
- Net. Weight: 345 kgs
- Work range: 250mm ~ 2500mm
- Dimension: 200*87*150CM

Item No.: JSM-RB10

Metal ring bending machine

Item No.: JSM-RB10

- It's for bending the steel bar of manufacturing outer ring & inner ring For SWG or Kammprofile gasket
- Voltage: ~380V
- Power: 1.5KW
- Net. Weight: 220 kgs
- Work range: from 200mm
- Dimension: 98*68*91CM

MACHINES

JSM Sealing Machines

Item No.: JSM-SW10

Spot welder item

No.: JSM-SW10

- It's for welding filler of SWGs
- Voltage: ~220V
- Power: 6 KW
- Net. Weight: 26kgs
- Dimension: 48*36*46CM

Item No.: JSM-KM10

Kammprofile gasket machine

Item No.: JSM-KM10

- It is for kammprofile gasket, groove metal gasket, kammprofile bar.
- Voltage: ~380V
- Power: 0.88KW
- Net. Weight: 350 kgs
- Gross Weight: 407 kgs
- Work range: from 250mm
- Dimension: 101*82*133CM

Item No.: JSM-CU10

Double knives cutting machine

Item No.: JSM-CU10

- Cutting the rubber gaskets inside diameter & outside diameter together at the same time
- Work range: 20mm ~ 2500mm
- Voltage: ~380V
- Power : 0.75KW
- Net weight: 150KG
- Dimension: 90x55x87CM

Item No.: JSM-TS10

Metal shaping machine for eyelet gasket

Item No.: JSM-TS10

- It's for shaping the metal strips.
- Voltage: ~380V
- Power: 0.20KW
- Net. Weight: 120 kgs
- Work range (thickness): 2mm ~ 6.5mm
- Dimension: 80*51*107CM

Item No.: JSM-EW10

Eyelets wrapping

Item No.: JSM-EW10

- It's for Expanded Graphite gasket eyelets.
- Voltage: ~380V
- Power: 0.2KW
- Net. Weight: 160 kgs
- Work range: 40mm ~ 2500mm
- Dimension: 88*48*128CM

Item No.: JSM-DJ10

For metal jacketed gasket

Item No.: JSM-MJ10

- It is used for Double jacketed gasket, for wrapping the gasket filler.
- Work range: from 200
- Voltage: ~380V
- Power: 0.8KW
- Net Weight: 275 KGS
- Dimension: 95x50x116 CM
